

Wilson Alexander Núñez Barrera

Career Summary

Senior Software Engineer with 9+ years of experience building scalable mobile and backend-integrated systems across fintech, transportation, and real-time platforms.

Experienced in Flutter, Swift, Kotlin, and cross-platform architectures, with strong focus on system reliability, offline-first experiences, real-time synchronization, scalable service integrations, and microservices-based architectures.

Skilled in collaborating with product, design, and engineering teams to deliver complex features end-to-end in Agile remote environments. Comfortable balancing architecture quality, delivery speed, and operational excellence.

Experienced working with REST APIs, Firebase, CI/CD workflows, mobile architecture patterns (MVVM, MVC, VIPER), and backend integrations using Java/Spring and Node.js ecosystems.

Actively leveraging AI tools (Claude, Amazon Q, Cursor, Antigravity) to accelerate development while focusing on architecture, UX, and system reliability.

Email: alex.nb.92@gmail.com

Age: 33 years old

Location: Ecuador

Summary of Qualifications

Technical Skills:

- Mobile Development:
Flutter, Swift, SwiftUI, UIKit, Kotlin, Objective-C
- Cross-Platform & Architecture:
MVVM, MVC, VIPER, Offline-first applications, Cross-platform integrations, Kotlin Multiplatform (KMP), Native module integrations
- Backend & APIs:
Node.js, TypeScript, REST APIs, Firebase, Real-time systems, API integrations, Java, Spring Boot, ASP.NET, GraphQL (Apollo)
- Cloud, DevOps & Tools:
Git, Jenkins, CI/CD, Firebase services, Performance monitoring, Crash analysis, Secure data handling
- Databases:
PostgreSQL, PGvector, Oracle, DB2, Firebase Realtime Database, CoreData, SQL

- Testing & Quality:
Unit testing, Integration testing, Debugging, Edge-case handling, Performance optimization, Application reliability
- Collaboration & Delivery:
Agile methodologies, Cross-functional collaboration, Technical documentation, Architecture decision-making, Remote team collaboration

Soft-Skills:

- | | | |
|-----------------------------|-----------------------|-----------------------|
| • Clear communication | collaboration | • Ownership |
| • Technical communication | • Problem-solving | • Mentorship |
| • Stakeholder communication | • Analytical thinking | • Continuous learning |
| • Cross-functional | • Root cause analysis | • Adaptability |
| | • Decision-making | |

Languages

- Spanish (Native - C2)
- English (Upper-intermediate (B2) – Professional working proficiency)

Career History

Novacom, Costa Rica

March 2023 – Present

Senior Mobile Developer

- Led iOS development efforts in an Android-first environment, ensuring feature parity and platform consistency
- Improved app performance and reduced crashes by optimizing memory and threading
- Developed Flutter integrations and native mobile modules for cross-platform applications, supporting feature delivery across iOS and Android ecosystems.
- Improved app performance reducing load times by 30%
- Built and maintained backend automation and monitoring workflows using Python and REST integrations to improve operational visibility and reduce manual reporting effort by 85%.
- Creation of Model Context Protocols to streamline monitoring flows
- Fixed security vulnerabilities related to sensitive data handling
- Worked with Kotlin-based shared logic and cross-platform integrations

Tools/Technologies: Jetpack, Cocoapods, CoreData, Coroutines, ASP.NET, C#, Java, Kotlin, Flutter, SwiftUI, Objective-C, Jenkins, GraphQL (Apollo), Architectures: (VIPER, MVVM), Amazon Q, Antigravity, Python

Fisa Group, Quito, Ecuador

March 2021 – February 2023

Software Development Consultant

- Mobile application development: create mobile banking from the scratch in Kotlin, Swift and Appcelerator.
- Collaborated with product and design teams to define application workflows, wireframes, and user experience improvements.
- Improve the user experience of the existing application.

- Took ownership of iOS and Android platform decisions, defining architecture and best practices
- Collaborated on backend service integrations using TypeScript/Node.js APIs and real-time data synchronization services.

Tools/Technologies: Jetpack, Cocoapods, Figma, Java, Kotlin, SwiftUI, Flutter, Node.js, Architectures: VIPER

Codestorm, Italy

May 2021 – January 2023

Software Development Consultant - Freelance

- Development of components and controllers in apex/salesforce.

Tools/Technologies: html5, css, osql

Advance Latam, Quito, Ecuador

June 2019 – March 2021

Software Developer

- Mobile application development: taxi ordering and mobile banking in Kotlin, Swift.
- Page of onboarding banking in Angular 6
- Support in backend processes with Java, Spring, Hibernate.
- Implemented real-time data synchronization using Firebase (Firestore, Realtime DB)
- Worked with Firebase services including authentication and push notifications (FCM)
- Implemented real-time location tracking and map-based features using Google Maps API
- Worked with background processes for location updates and real-time data sync

Tools/Technologies: Firebase real-time database, Google Maps API, Coroutines, React native, Architectures: (MVC, MVVM)

Kruger Corporation, Quito, Ecuador

June 2018 – March 2019

Software Developer

- Development of Java applications (backend and frontend), Spring, Hibernate 5 and Angular respectively, data handling in DB2.
- Time optimization in database migration with Pentaho Data Integration.

Tools/Technologies: Spoon/Pentaho, JSP, Angular, Java, Node.js

Encoding Ideas, Machala, Ecuador

January 2017 – March 2018

Software Developer - Freelance

- Development of delivery applications, PHP (web) and mobile (Java/Android and Objective-c/iOS).
- Analyze and design database.

Tools/Technologies: Socket IO, MVVM Architecture, Oracle

Relevant Experience

- Cross-platform collaboration (Android + iOS teams)
- Offline-capable mobile applications
- Real-time data synchronization
- Performance optimization in mobile apps
- Secure data handling in mobile environments
- Experience working with Firebase services

Education:**Systems Engineering**

Institute: Universidad Técnica de Machala

Location: Machala, Ecuador

March 2009 – February 2015

Certifications:**AZ-900**

Microsoft

Expedition: April 2026

Credential ID: C2EC5F97BDC58C0B

Certification Number: 22A590-14FD00

DevOps Essentials

Certiprof

Expedition: April 2026

Credential ID: TLZZSQHHDGT -XXQSPSXTY -RDLSDTFKFH

Amazon Q Developer for Programmers and DevOps AWS AI coding

Udemy

Expedition: March 2026

Credential ID: UC-bebdc003-db0d-4952-ba1e-6f1f2bfb723

Scrum Fundamentals

Vabro.ai and VMedu.com (Scrum/Kanban/AI/Business Analysis/OKRs/Six Sigma/Sales and Marketing etc.)

Expedition: April 2023

Credential ID: 972532

Flutter - Intermediate

Udemy

Expedition: December 2020

Credential ID: UC-f648294a-a685-4487-b6e3-c6eb3acc3260

AWS Concepts

Udemy

Expedition: April. 2019

Credential ID: UC-TY4JOMPC

Introducción a SQL con Oracle 11g

Udemy

Expedition: March 2019

Credential ID: UC-RGJZ4994
